Subject: RE: Curling Case

Hello Bruce,

I received your Email pointing out a problem in the subject line of one of our recent Emails we sent to supporters. Your objection seems to be that we sent that Email out with the word "our" in the subject line and I apologize for that. If you notice, it was not in the body of the Email and I don't think you have any other objection to the actual Email itself. I don't write the subject lines for our Emails but Ricardo and I will be glad to refrain from using that word in any future references to Judge Totenberg's orders about the Curling case even though he is a plaintiff.

We have always explained that Ricardo is one of the plaintiffs in the Curling case just as you said. You may not know that I was happy to recruit Ricardo for the case at Marilyn's request for a more conservative Georgia plaintiff. You also may not know that Ricardo and I are co-founders of VoterGA, and we both are in the Constitution Party of Georgia. We have done as much as we can to promote the good work of all the plaintiffs, attorneys and their expert witnesses.

Other accusations that you made in your Email to me are inflammatory, false and alienating for Ricardo. **At no time during our public discussions of the Curling case have I ever claimed to speak on behalf of any plaintiff in the case, nor has Ricardo.** I am sure you understand we have a 1st Amendment right to publicly discuss Judge Totenberg's orders in depth which is exactly what we did Saturday and have done in the past.

If there is anything further you need from us, please feel free to call or Email Ricardo or me anytime.

Sincerely,

Garland Favorito

Garland,

Marilyn forwarded the email message below to me. It is very inaccurate and inappropriate for you to call the Curling case "our Curling case." Though Ricardo is of course a plaintiff in the Curling case, you are not a plaintiff in the case and the Constitution Party is not a plaintiff in the case. And you are not authorized and cannot speak on behalf of any of the other plaintiffs, or counsel, in the Curling case.

Your email is very misleading, for it suggests that you are speaking on behalf of the plaintiffs in the Curling case and that you are somehow associated with it. You may not have intended to hold yourself out as a spokesperson for the plaintiffs in the lawsuit, but that is how it reads. Please take this as a formal demand that you do not, either expressly or by implication, suggest that you are speaking on behalf of the plaintiffs in the Curling case or their counsel.

Garland, you would not want anyone associating your name with a cause or a position that you disagreed with. The plaintiffs in the Curling case, and their counsel, are no different. The issues that you address in your email have little or nothing to do with the lawsuit and you have no way of knowing if your positions on those issues are shared by plaintiffs in the Curling case or if the plaintiffs find those views highly and deeply offensive. It is wrong for you to suggest to anyone that you are speaking on behalf of the plaintiffs in the Curling case or their counsel, for you to insinuate that you are involved in the lawsuit, or for you to imply that the parties to the lawsuit share any of your beliefs or positions. This has to stop.

Please let me know if you have any questions.

Bruce

P.S. Marilyn the indictment filed against President Donald J. Trump and 18 Americans by the Fulton County District Attorney Fani Willis is a direct attack on the integrity of our elections and the republican form of government guaranteed by our federal and state constitutions. Failure to act now will imperil the 2024 elections. We've met our initial goal and need more folks involved to motivate our legislators.
